

# Could you change a child's life?

Foster Care Newcastle

There is a severe shortage of foster carers across Newcastle, Lake Macquarie, and the Hunter region.

Many of these children are living in short-term or emergency placements with no one available to care for them.

Can you help? There are many types of foster care and they all matter. You could be a foster carer for a few days a month, emergency support or long-term care.

Please Google search “**Foster Care Newcastle**” and reach out to an agency in your area.

It doesn't matter who you call or which organisation you approach, you could change a child's life.
