

Could you change a child's life?

Foster Care Newcastle

Right now, hundreds of local children and young people have no one available to care for them. They need our help, and they need it now.

There is a severe shortage of foster carers across Newcastle, Lake Macquarie, and the Hunter region.

Help us to spread the word and encourage people to open their homes to those who need it most.

Talk to your family, friends, neighbours, sporting clubs, or anyone you think might be able to support these children and young people.

Visit **www.fostercarenewcastle.org.au** to download resources to share with your community.

Your support could change a life today.
